USE GENYES OHIO TO:

Develop Problem-Solving Skills

GenYES Ohio offers teachers the opportunity to help their students become problem-solvers, creative digital citizens, and savvy users of technology.

Become Creative Digital Citizens

Educators can use the GenYES Ohio platform to empower students to impact the school's technology integration goals. Use the platform to log students' technology assisted projects as they mentor, create, and support classmates and educators.

Technology Assisted Projects (TAPs) Platform

GenYES Ohio's Technology Assisted Projects (TAPs) platform is web-based and tracks student projects. With the TAPs platform, educators can guide students as they provide IT support and content creation help to their school community. Use the tools on the platform to model work environments in the classroom. The GenYES Ohio TAPs platform is a great tool for project-based classrooms in grades 7-12 including:

Computer Science

Industrial Arts

STEM

Student Supported Help Desks

Technology

The GenYES Ohio TAPs platform is available at no cost to Ohio's schools and educators.

Additional Resources

- GenYES Ohio Community Open Space Group
- Toolkit of Resources in Open Space
- Curated content packages and support for graphic design, digital audio and video, and website design
